Intensive Cloud Training - Mission 2

Welcome to the Training that can change the course of your career in the technology market.

Mission 2: You'll learn the process to convert a database and an application to run on the **MultiCloud architecture** (**AWS** and **Google Cloud**), including **Docker** and **Kubernetes** on this path.

Summary of Mission 2

Steps to implement Hands-on Project - Mission 2

Your mission

Join our Intensive Cloud Training Community and introduce yourself. Tell us your goals, and what do you expect to learn during the Intensive Cloud Training. (if not done yet) **Click here to join**

Deploy the application on Kubernetes

Take a screenshot of your application up & running on Google Cloud Kubernetes Engine as an evidence to get the certificate at the end of the challenge

Create a post on your LinkedIn Profile showcasing what you've done, tag @Jean Rodrigues, @The Cloud Bootcamp and invite your friends to go for it with you as well. Use the template below or share this link with them https://e.thecloudbootcamp.com/d8z5zO:
