part 1/day 1

☑ welcome

- ☑ is a video saying that the course exists

☑ watch, then do

- ☑ is a video saying watch t hen do what the guy does for the tutuorals lol

☑ apparently the content will no longer be available as of July 31, 2023 soooooo that's my deadline :D

☑ install unity

- ☑ I'm using unity 2021.3.24f the lts version
- ☑ with visual studio code editor 2023 edition
- ☑ already logged in

☑ if u complete courses u gain xp????

- ☑ +10 Unity Essentials xp &
- ☑ +60 programming xp?????????
- ☑ u need 500 xp to level up past lvl 1
- ☑ kinda cringe imo

☑ UNIT 1 3d truck driving game where u avoid or crash into boxes

- ☑ I need this coz camera control and also 3d models not working in gnz

Educator Plan
By the end of this lesson, you will be able to:

- Create a new project through Unity Hub
- Navigate 3D space and the Unity Editor comfortably
- Add and manipulate objects in the scene to position them where you want
- Position a camera in an ideal spot for your game
- Control the layout of Unity Editor to suit your needs

☑ download Prototype 1 - Starter Files.zip

- ☑ does this link even work in the future???
- ☑ https://connect-prd-cdn.unity.com/20210923/c709e76b-3e93-4140-8675-f694b9f04399/Prototype%201%20-%20Starter%20Files.zip

☑ omg they talk so slow, 3x speed it is, tldr make new unity app/folder

☑ extract assets from starter files, then import the unity file in the zip

☑ the Project window, in *Assets* > *Scenes* > double-click on the Prototype 1 scene to open

☑ delete sample scene?

☑ roblox camera control to look around XD

- ☐ whoa everything is so small , I was right my models were too big I'm gnz

☐

☐
